

This Impact Report explores the areas we've worked on during 2020 and reflects on our role as a national health technology assessment (HTA) organisation.

Thank you to everyone who has been a part of our work and helped us grow into an innovative organisation, especially during the challenges of the COVID-19 pandemic.

More than **59,700**
estimated **people impacted**
by HTW Guidance

Over **£2.75 million**
total **potential cost savings**
of HTW Guidance

A recent independent external review of our progress in our first three years of operation concluded:

“HTW is unequivocally fulfilling its core function of providing a dedicated centre of expertise in Wales for the identification, appraisal and adoption of health technologies.”

Mark Campbell,
Independent HealthTech Expert

Health Technology Wales

10

topics progressed to
evidence appraisals

7

pieces of HTW Guidance
published

15

outputs on COVID-19
technologies

We provided expert advice to strategic Welsh Government committees, co-authored pan-European reviews and produced rapid reports on emerging evidence. [Click here to see our COVID-19 Impact Report.](#)

“Thanks to the collaborative effort of HTW and four other HTA agencies, EUnetHTA's work proved timely and was further disseminated by other European institutions, such as the European Commission COVID-19 Testing Working Group and Joint World Health Organisation Europe/European Centre for Disease Prevention and Control Laboratory Network.”

Luciana Ballini, Senior Researcher,
Regione Emilia-Romagna & EUnetHTA COVID-19 Taskforce
